This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

STATE OF NEW YORK

No. 18.

IN SENATE,

JANUARY 30, 1902.

ANNUAL REPORT

OF THE

State Board of Tax Commissioners

OF THE

STATE OF NEW YORK.

ALBANY, N. Y., *January* 30, 1902.

Hon. TIMOTHY L. WOODRUFF, *President of the Senate:*

Sir—We have the honor herewith to transmit our annual report for the year 1901.

GEORGE E. PRIEST,
J. EDGAR LEAYCRAFT,
LESTER F. STEARNS,
State Board of Tax Commissioners.

174489

REPORT.

OFFICE OF THE

STATE BOARD OF TAX COMMISSIONERS,

ALBANY, *January* 30, 1902.

To the Legislature of the State of New York:

Report is hereby made for the year 1901 as required by the statute of 1896 creating this Board:

First. Increased assessments of 1901 over 1900.

Second. County visitations and State equalization of 1901.

Third. Appeals from tax districts.

Fourth. Variations in General Tax Law tending to greater certainty of operation.

Fifth. The Special Franchise Tax Law.

Sixth. Working of new tax provisions.

Seventh. Department details.

INCREASE IN 1901 ASSESSMENTS OVER 1900.

As disclosed by the rolls, the assessed value of the property in this State in 1901, compared with the year previous, is shown thus:

Real Property.		*Personal Property.*	
1901	$5,168,645,988	1901	$702,257,115
1900	5,093,025,771	1900	672,715,703
Increase	$75,620,217	Increase	29,541,412

Total increase during one year in assessed wealth of the State, $105,161,629.

COUNTY VISITATIONS AND STATE EQUALIZATION.

In 1901 one-half the counties of the State were officially visited, as made mandatory by the law of 1896. In the report to the State Board of Equalization, upon pages following, are enumerated the counties visited, comparison of the assessment-roll totals of 1900 with those of 1899, explanation of the variation in those totals, and some comment germane. The visitations, fixing of county percentages, and State equalization table have to do with a volume of five billions in values. The special franchises aggregate two hundred and fifty millions. The local assessments, county percentages and equalization are discretionary and arbitrary.

The direct levy upon the counties for State purposes was slight in 1901. It is anticipated, at this date, that the constitutional requirement of a small exaction for canal bonded indebtedness may be satisfactorily provided for without any direct levy whatsoever in 1902, thus obviating necessity for a State equalization table. The character of the visitations may this year be varied to more urgency for fair equalization as between tax districts by supervisors, and instruction of assessors in the General Tax Law, as varied by recent enactments, along lines of local bearing.

APPEALS FROM COUNTY EQUALIZATION; AND LEGAL RESIDENCE.

The legal representatives of parties to appeals in Suffolk and Westchester counties have been notified to appear at the office of this Board upon the 28th instant for submission of arguments.

At joint request of opposing counsel, this Board adjourned without date a sitting fixed at Newburgh, for November 21st last, to take testimony in the appeals of the city of Middletown against the board of supervisors of Orange county and the equalizations of 1899 and 1900. The request was granted upon representation that the differences would probably be composed amicably by the December, 1901, session of the supervisors of that county. This Board is unofficially advised that such desirable termination did not ensue, and that hearing and decision will now be asked.

Notice of an appeal by the town of Preble from an equalization made by the board of supervisors of Cortland county was filed December 23d last.

The Board has, by correspondence, determined the legal place of residence, for taxation purposes, of several owners of personalty, where conflict with assessors has arisen, as made obligatory by section 8 of the Tax Law.

PURPOSES TO WHICH TAXES PAID IN 1900 WERE APPLIED.

Appended is a tabulation, by counties, exhibiting taxes levied upon all assessed property for State, county, town, city, village and school purposes for the year 1900. This statement is com-

piled from the figures reported by local tax authorities, upon requests therefor from this Board. It is the first table of its kind to appear in the annual reports of this Department, and presents statistics of interest. It discloses that the total of $121,336,090.80 paid in taxes in 1900 was for the purposes named in the sums following, viz.:

City	$68,258,888 79
Local schools	24,142,724 16
State	11,819,713 24
County	10,424,590 12
Town	3,808,346 98
Village	2,881,827 51

The per capita column, based upon population, is worthy some study. While a few of the villages have not yet reported, the figures as given are believed to be substantially correct.

SUGGESTED CHANGES IN GENERAL TAX LAW.

It is to the General Tax Law of 1896 that the following relate:

Section 53 provides for the correction of errors by boards of supervisors, in any county, of property erroneously assessed or omitted. It is submitted that authority should be given either to the board of supervisors, to this Board, or to some board, to promptly correct errors in assessments; and it is equally important that power should be given, upon presentation of proofs, to increase as well as decrease assessments, in order that property neither escape nor be unjustly burdened by reason of errors or omissions that may occur in the vast labor incident to the making and copying of assessment rolls. In this connection quotation is made from the Governor's latest annual message:

"The desire to exceed the debt limit leads to overvaluation, particularly in large municipalities, which the unfortunate property owner is powerless to correct, except through the tedious delays of law. Fairness should be the basis for the imposition of all taxes, and the State Board of Tax Commissioners should enforce the provision against excessive, as well as low, assessments. The Legislature should amend by general law the powers of the State Board, so as to make it a reviewing court to investigate and correct inequalities in the matter of assessments, and thus become not only a mediator, as between counties of the State, but also serve to protect the rights of individuals in each locality. I recommend such action."

POLE-BRANDING.

The Board recommends a legislative requirement, under sufficient penalty to insure compliance, directing the owner company to burn into every electric light, trolley, telegraph and telephone pole bearing two or more wires, in characters distinctly legible and not less than one inch long the name or initials of the company owner of such pole, together with the name of the owner of the wires strung upon such poles, and the number of such wires owned by each user of each pole; each impression to be burned into the wood to a depth of not less than one sixty-fourth of an inch. To any legislator who has endeavored to establish the ownership of poles or wires, for any purpose, nothing beyond suggestion will be required to enlist his advocacy of this proposition. Assessors are wholly unable to do their duty in connection with this rapidly increasing form of property.

TOWN LINE HARDSHIP.

Section 10 provides that a farm or lot divided by a town line shall be assessed to the owner in the district in which he resides; or to the occupant if the owner is a non-resident. Many objections have been made to this Board and much correspondence has occurred relating to the injustice permitted by the terms of this section. Frequently a farm lying in two townships is assessed in the town having the smaller portion. Again, by purchase, or foreclosure of mortgage, adjoining land in neighboring towns is withdrawn from the assessment roll of one town and added to that of another, thereby placing an additional burden upon the remaining property of the one town. It would appear that justice requires all lands in a town to be liable for all taxes in such town; and it is recommended that some corrective action be taken, although it is recognized that inconvenience, if no other disadvantage, might flow to the assessed from such correction.

WHOLESALE CHANGES OF ASSESSORS UNDESIRABLE.

The terms of local assessors should not expire simultaneously. A plan whereby not more than one rural assessor may enter a board annually would be advantageous. Not infrequently boards are encountered all three members of which are absolutely innocent of their duties; and without comprehension of plain requirements of the Tax Law. Any roll emanating from such a board is likely to be invalid; and liable to disjoint the financial calculations of a tax district, if questioned in court.

INSUFFICIENT PER DIEM OF RURAL ASSESSORS.

The pay of the town assessor is $2 per diem, as the rule. In Monroe county—the only exception recalled—the per diem is $3. In the towns of the county named an exceptionally excellent class of town assessors is prevailed upon to serve. In that county also the assessors meet periodically with experienced Supervisors' Clerk Bastable, for study, discussion and mutual instruction, with gratifying results, as evidenced by every examination of their rolls. Three dollars per day would not be excessive pay to attach to this most important of local offices in the smallest township. Satisfactory assessments are worth fair hire. An invalid roll may involve much litigation and expense. Many rolls fail to comply with the statutory requirements. More adequate compensation must tend to attract the service of the more qualified servants. Ill-paid assessors may not be the invariable equivalent of faulty rolls; but the work cannot be too well done, and is not likely to be overpaid. A uniform per diem of $3 for rural assessors would be, in our opinion, justifiable increase of town expenditure, since the period of assessors' service is limited to a small portion of a year.

GROWTH OF LEGALLY EXEMPT TOTALITY.

Reports from the cities of this State exhibit an aggregate exemption of $723,344,841 in 1900, and of $761,737,483 in 1901; substantially all realty. This gain to the tax immune list, thirty-eight millions in a single year, makes significant the adoption by the people, last fall, of the constitutional amendment proscribing special legislative exemption acts, as recommended to them by your honorable body. Classes of property may be

hereafter exempted generally; but no member or members of any class.

A provision expanding requirement of reports of exempt property from all subdivisions of the State would seem desirable, since many large institutions are located outside of city limits.

SPECIAL FRANCHISE TAXATION IN AID OF LOCALITIES.

During 1901 this Board made 3,591 special franchise valuations, aggregating $256,150,765; a decrease in number of 1,156, and in amount of $10,051,994 from the figures of 1900 reported last year. This decrease is principally due to the effect of chapter 490 of the Laws of 1901, eliminating street and highway crossings of less than 250 feet in length from special franchise assessment. It is a decrease which has been substantially covered by the local assessors, so that slight loss to assessment rolls in the aggregate should result therefrom.

The labor of examining reports by the Board began in January, 1901, and continued, with hearings upon tentative valuations, and with the fixing of final valuations, as other official work permitted, to October 1st, the time specified by statute for the certification of final special franchise valuations to the clerks of the cities of Albany, Rensselaer, Yonkers, Mount Vernon and New Rochelle—the latest certifications for the year—the newly erected cities of Cortland and Oneida being, as yet, unsupplied by the Legislature with dates for certification.

In addition to the making of tentative or provisional valuations and hearing oral complaints, proofs and arguments thereon, the Board made examination, investigation and comparison of more than 1,200 proofs and objections filed in affidavit form, before the fixing and certifying of final valuations.

1901 VALUATIONS.

A statement appears upon pages following disclosing, by counties, cities and townships, the valuations fixed by this Board in 1901 upon the utilities enjoying use of public thoroughfares as rights of way. Such valuations are the product of the second year's operation of the locally beneficent law of 1899. Those second year valuations attest ampler information concerning properties treated than prevailed the initial year.

The making has now begun of tentative special franchise valuations for the grievance hearings and final valuations for the local assessment rolls of 1902. The reports of the corporations, as the basis for this work, have been made more promptly and fully, with few exceptions, for this third year than they were in either of the two prior years.

LITIGATIONS.

Upon the special franchise valuations for 1900, 278 writs of certiorari were issued against this Board. Upon the valuations made for 1901, 221 writs were procured and served upon this Board, and by it transmitted to the Attorney-General. Returns to 200 of these writs have been made by the Attorney-General upon information supplied to him by this Board. Other returns are being prepared as expeditiously as possible. These 500 litigations involve much clerical and other labor.

Forty-seven of these cases have been tried and argued before Referee Robert Earl, former chief judge of the Court of Appeals, and await his report to Justice Herrick, who appointed him. Ex-Chief Judge Charles Andrews of the Court of Appeals has been appointed referee to review the valuations of the

Manhattan Elevated Company's property made by this Board. As yet no evidence has been adduced before this referee.

SETTLEMENTS MADE.

Appended is a list of settlements of cases, which were in litigation, made by the Attorney-General with the concurrence of this Board. The valuations thus adjusted amount to $26,786,-692.68 and the taxes thereon, calculated at the average tax rate of 2¼ per cent., paid into local treasuries, $602,700.57. The settlements agreed upon and ordered by the court, not yet consummated, and agreements upon settlements awaiting fulfilment by the parties and court confirmation will increase these figures.

It may be fairly assumed, from the small number of appellants or plaintiffs actually in court, compared with the large number of writs issued, that the bulk of the writs have been issued to secure possible contingent benefit accruing from any adverse judicial construction.

It will be noted that the total number of writs is but a small percentage of the total number of valuations. The bulk of the writs against the second year's valuations were secured by the parties to the first year's writs.

PAYMENT OF SPECIAL FRANCHISE TAXES.

As will be seen, from a list by counties herewith, payment of special franchise taxes, without protest or legal resort, has been general in the State at large. It has involved much effort to obtain the information set forth in this annexed schedule; which schedule, and the other schedules and tabulations ap-

pended, we ask be considered as part of this report. They present data of reference value not easily obtained.

Approximately, in 1900, $1,021,997.23 in State, county, town, city and village taxes were paid into local treasuries upon the valuations found by this Board for that year upon special franchises. This sum does not include school and improvement (sewer, pavement, etc.) taxes or any specially voted taxes upon the same valuations collected in cities and villages, it being the case that special franchise assessments are not fruitful for State, county and general local taxation alone; but are likewise contributory to every special local purpose as well. From such information from local authorities as we have been able to glean and assemble it is estimated conservatively that, outside of New York city, taxes have been paid upon fully 80 per cent. of the special franchise valuations made in 1900. In the rural counties, where taxpaying has become a patriotic practice, payment has been made upon these assessments, almost without exception, without quibble or protest. There is no reason why payment of these taxes should not be enforced everywhere since writs do not operate to stay collection.

At this date collection of taxes by most city receivers and town collectors is yet in progress, for the second time, upon special franchise assessments.

Pending judicial determination of the validity of this law, recommendation of any amendment thereto is not herein made.

WORKING OF NEW PROVISIONS.

We report that, in attainment of uniformity of assessment and denial of deduction for individual indebtedness to shareholders, the bank taxing amendment of last winter gains two

commendable ends. It is believed, owing to these two advantages, that the flat rate of 1 per cent. will secure benefits to communities throughout the State comparable with the yield of the previous larger local rate under the two former handicaps.

The small house-owner is gratified by the beginning made in permission to savings bank surpluses to share with his home in contribution to the common purse. The trust companies, by deduction of exempt securities and 10 per cent. under the law of manufacturing corporations, had shrunk to factors scarcely missed from the rolls of smaller communities. Their present aid in reducing direct State tax perhaps nearly, if not quite, compensates for their previous local relation.

The smallness of the direct State tax in 1901 now being collected in the State at large comes as a great relief, "the shadow of a great rock in a weary land," to taxpayers, whose local loads are overheavy. Disappearance of a direct State tax in 1902 will cause rejoicing throughout the commonwealth. The mass of taxpayers gratefully approve maintenance of State government from indirect revenue.

DEPARTMENT WORK AND FINANCES.

This Department is now efficiently organized and systematized. Its force has become experienced and capable. Owing to the tax legislation of last winter, the correspondence of 1901 has been extensive, and the issuance of blank forms and of circular letters of instruction considerable.

Of the appropriation made by the Legislature for its maintenance for the fiscal year ending October 1, 1901, this Board

reports an unexpended surplus, in the hands of the Comptroller, of $19,231.36. The apprehended cost of expert testimony in the special franchise litigations, contemplated in the estimate made, was not experienced.

Respectfully yours,

GEORGE E. PRIEST,
J. EDGAR LEAYCRAFT,
LESTER F. STEARNS,
State Board of Tax Commissioners.

STATE BOARD OF EQUALIZATION.

Minutes of the State Board of Equalization, at its meeting held at the office of the Secretary of State, in the city of Albany, on the 3d day of September, 1901.

Present: S. Fred Nixon, Speaker of the Assembly; John T. McDonough, Secretary of State; John C. Davies, Attorney-General; John P. Jaeckel, State Treasurer; George E. Priest, Tax Commissioner; J. Edgar Leaycraft, Tax Commissioner; Lester F. Stearns, Tax Commissioner.

Absent: Timothy L. Woodruff, Lieutenant-Governor; Erastus C. Knight, Comptroller; Edward A. Bond, State Engineer and Surveyor.

On motion of Mr. Priest, Speaker Nixon was made chairman.

On motion of Mr. Priest, Herbert L. Austin was made secretary.

For the State Tax Commissioners, Mr. Priest read and presented the following report:

To the State Board of Equalization:

The State Board of Tax Commissioners submit herewith the table of equalization prepared by it of real valuations for the counties for 1901.

The entire assessed value borne upon the assessment rolls of 1900, of this State, as reported to this Board, is:

Realty	$5,093,025,771
Personalty subject to State taxation	593,895,907
Total	$5,686,921,678

An increased total of $225,618,926 over last year.

The above increase in realty assessment results largely from the special franchise valuations certified to the local rolls of 1900 by the State Board of Tax Commissioners. The sum of these special franchise valuations was $170,140,857 in increase of former local assessment of the same properties in use in the streets and public places. This $170,140,857, deducted from the $281,432,712 reported increase in realty assessment leaves $111,291,855 as the increase made by the local assessors, mostly upon new buildings and betterments. The increase of assessment in this State in 1900 over 1899 was made wholly upon realty. The increase upon property in this form was $281,432,712; but is diminished to an apparent gain of $225,618,926 by the loss of $55,813,786 in personal assessments. These figures are eloquent in explanation of the existing status of real estate in the Commonwealth:

	Total assessment of realty.		Total assessment of personalty subject to State taxation.
1900	$5,093,025,771	1900	$593,895,907
1899	4,811,593,059	1899	649,709,693
Increase	$281,432,712	Decrease	$55,813,786

From increase on real	$281,432,712
Deduct decrease on personal	55,813,786
Apparent increase on both in 1900 over 1899	$225,618,926

The enlarged total assessment and the decreased sum required to be raised by direct taxation for State purposes will reduce the taxation upon the table now before you to the smallest sums exacted from the counties in recent times.

The disproportion between the assessment of realty and personalty, as above shown, has advanced from 7½ to 1 to 8½ to 1. Retention upon their rolls by local assessors of personal assessments is annually becoming a task more and more difficult of achievement. Neglect or laxity of local assessors is not to be inferred as accounting, to large extent, for this condition. Non-residence, deduction for alleged indebtedness, share-holdings in properties supposedly assessed at distant "home offices," savings bank sanctuary, and legally exempt securities are the main avenues through which fugitive personalty makes flight.

During 1901 official visitations, mandatory by statute, have been made by this Board to the following counties:

Cattaraugus,
Chenango,
Clinton,
Delaware,
Dutchess,
Essex,
Franklin,
Fulton,
Greene,
Hamilton,
Kings,
Lewis,
Livingston,
Monroe,
Nassau,
New York,
Oneida,
Otsego,
Queens,
Rensselaer,
Richmond,
Rockland,
Schenectady,
Schoharie,
Schuyler,
Steuben,
Suffolk,
Sullivan,
Ulster,
Warren,
Washington.

These visitations have been more than perfunctory compliance with the law's mandate. Earnest and faithful effort has been made in each instance to fulfil the spirit as well as the letter of this requirement.

Assessors and supervisors are coming to attach more significance each year to these annual conferences with them, and they

now respond in practically full representations, from each tax district, at the meeting places.

Owing to some complexity in the assessment laws, and varying court interpretations of the same, county associations of assessors, which are virtually assessors' schools of training, modeled upon the one now in operation in Monroe county, would, if general, prove of value.

We have examined into the manner of assessment in the counties of this State, questioned the assessors and supervisors under oath, investigated sales, their nature and effect upon assessment, interrogated other than officials in various localities, and in all ways fairly open to us endeavored to glean information enabling us to judicially accord to each county its just rating or percentage, which rating is the basis of the table now before you for disposition.

Representatives, legal and lay, individual and in delegations, from several counties, have appeared before us at our office in quest of advantageous ratings. All these have been patiently heard, and all that they have urged has been fairly weighed.

We commend the equalization table herewith presented to your consideration and adoption.

Very respectfully,

GEORGE E. PRIEST,
J. EDGAR LEAYCRAFT,
LESTER F. STEARNS,
State Board of Tax Commissioners.

Dated Albany, September 3, 1901.

On motion of the Attorney-General, the report of the Tax Commissioners was accepted; and the equalization table hereto attached, as prepared by that Commission, was unanimously adopted.

On motion of Mr. Priest, the Board adjourned sine die.

H. L. AUSTIN,
Secretary.

The following table of percentages, showing relation of assessed to full actual value of 100, and equalization based thereon for the several counties was unanimously adopted:

County.	Percentages.	County.	Percentages.
Albany	78	Oneida	82
Allegany	73	Onondaga	85
Broome	74	Ontario	75
Cattaraugus	78	Orange	67
Cayuga	74	Orleans	77
Chautauqua	90	Oswego	73
Chemung	70	Otsego	73
Chenango	73	Putnam	77
Clinton	50	Queens	80
Columbia	78	Rensselaer	78
Cortland	82	Richmond	67
Delaware	75	Rockland	81
Dutchess	71	St. Lawrence	85
Erie	68	Saratoga	69
